

JOEL I. BERMAN, CIH, CSP, CIAQM
CAC, CDPH I/A and PM
President

EDUCATION

BS - Business Administration with an Option in Marketing
California State University, Long Beach December, 1987

PROFESSIONAL CREDENTIALS AND ACHIEVEMENTS

Certified Safety Professional, Comprehensive Practice (CP) - Serial No.: 11595
Certified Safety Professional, Safety Management Specialist (SMS) - Serial No.: SMS-1000
Associate Safety Professional (ASP) - Certificate No: ASP-A5468
Certified Asbestos Consultant - (California) Certificate No: 92-0838
Certified Industrial Hygienist - Certificate No: 8606
Certified Indoor Air Quality Manager - Certificate No: 0908021
California Department of Public Health (CDPH), Inspector/Assessor - LRC00003608
CDPH Project Monitor - LRC00003607
Red Cross 13 Gallon Pin (Awarded 12/2019)

PROFESSIONAL PRESENTATIONS

- 12/2000 - Case Study, Fungal Remediation in a Hospital Building, California Industrial Hygiene Council Conference
- 05/2003 - Case comparing fungal air sampling results from 21 residences, 14 hospitals and 1 commercial building, Orange County American Industrial Hygiene Local Section Meeting
- 05/2003 - Case comparing fungal air sampling results from 21 residences, 14 hospitals and 1 commercial building, American Industrial Hygiene Conference and Exhibition
- 01/2004 - Southern California Maintenance and Modernization Meeting Notice, San Bernardino Housing and Urban Development Meeting, Fungal Awareness
- 03/2004 - Picker, Chow & Freisleben LLP, "You can kill it with bleach or: How to Successfully Investigate and Resolve Mold Litigation", Fungal Awareness
- 12/2004 - "Particulate Characterization as an Industrial Hygiene Evaluation/Indoor Air Quality Tool", California Industrial Hygiene Council Conference
- 05/2005 - "Mock Trial - Brittany Murphy v. Big Tox Trucking Company", American Industrial Hygiene Conference and Exhibition
- 04/2008 - "Vapor Intrusion Air Sampling Inside of 13 Buildings at a Southern California Superfund Site", Orange County American Industrial Hygiene Local Section Meeting
- 06/2008 - "Vapor Intrusion Air Sampling Inside of 13 Buildings at a Southern California Superfund Site", American Industrial Hygiene Conference and Exhibition
- 05/2009 - "Tiger Team: Optimal Risk Management and Sustainable Production of a Medical Device", American Industrial Hygiene Conference and Exhibition
- 12/2010 - "Evaluation of Data Sets to Determine Fungal Spore-Contamination", California Industrial Hygiene Council Conference

JOEL I. BERMAN

- 1/2011 - "Evaluation of Data Sets to Determine Fungal Spore-Contamination", Indoor Air Quality Association, Irvine Chapter Workshop
- 7/2012 - "Commercial and Residential Odor Investigations, How to plan and implement a successful odor investigation", Indoor Air Quality Association, Los Angeles Chapter Workshop
- 3/2015 - "The Nuts and Bolts of an IAQ Investigation", ASSE Orange County Professional Development Conference
- 12/2015 - "Mold Licensure, What has occurred in other states (The Good, The Bad, and the Ugly, mostly the ugly), CIHC Professional Development Seminar
- 5/2016 - "Fundamentals of an Industrial Hygiene Survey", 2016 New Mexico Mine Health and Safety Conference

PROFESSIONAL TRAINING

- 2010 - Hazardous Waste Operations and Emergency Response (HAZWOPER) training
- 2003 - Mold Remediation: The National Quest for Uniformity, sponsored by the American Conference of Governmental Industrial Hygienists
- 1996 - Biological Contamination of Indoor Environments: Sponsored by the U.S. Environmental Protection Agency, Presented by MidAtlantic Environmental Hygiene Resource Center and the University of Tulsa, Division of Continuing Education and Center for Environmental Research and Technology
- 1989 - Asbestos Hazard Emergency Response Act Re-Accreditation (AHERA) as a Building Inspector and Management Planner. Original training received in 1988 with annual updates in March 1989, 1990, 1991, 1992, 1993, 1994, 1995, and 1996
- 1992 - Radon Measurement and Operators course: Western Regional Radon Training Center
- 1992 - AHERA Contractor/Supervisor Training Course
- 1990 - NIOSH courses presented by:
The University of Southern California Institute of Safety and Systems Management (USC-ISSM)
Workers' Compensation: Your Safety and Health - Balance Sheet - 16 hours; 6/90
Ergonomics: Building Efficiency and Safety into the Workplace 12 hours; 6/90
Radio Frequency and Microwave Radiation Safety - 16 hours; 8/90
Recognition of Occupational Health Hazards/Issues - 40 hours; 9/90
Hazardous Materials Handling and Disposal - 40 hours; 10/90
Certificate: Specialist in the Practice of Occupational Safety and Health; 10/90
- 1990 - Other Courses
The University of Michigan Center for Occupational Health and Safety Engineering
Bioaerosols: Health Effects, Exposure Assessment and Control - 28 hours; 10/90
M.B.A. Professional Development Seminars
Laboratory Techniques and Trends - Relationships to Air Sampling Strategies - 16 hours; 12/90
- 1989 - NIOSH courses presented by:
The University of Southern California Institute of Safety and Systems Management (USC-ISSM)
Industrial Ventilation Fundamentals - 32 hours; 12/89
Industrial Hygiene Sampling Strategies - 24 hours; 11/89
Transportation of Hazardous Materials/Waste - 16 hours; 10/89
Occupational Respiratory Protection - 40 hours; 9/89

1989 - Attended a Professional Development Course in Conducting Effective Health and Safety Audits at the American Industrial Hygiene Conference, St. Louis, Missouri

PROFESSIONAL EXPERIENCE

Health Science Associates (HSA)
President (2020 - Present)

Mr. Berman is tasked with providing strong leadership for the company by working with the board and other executives to establish short and long-term goals, plans and strategies. He is responsible for presiding over the entire workforce, managing budgets and making sure resources are allocated properly. He makes sure all departments meet their individual goals and are responsible for overall accountability. He encourages business development and acts as the public face of the company. Additionally, Mr. Berman is also responsible for mentoring and to help grow the next generation of Industrial Hygienists.

Health Science Associates (HSA)
Vice President (2004 - 2020)

Internal/Facility Services/Contracts for Both Offices	Field Administration
Corporate/Employee Insurance Policies	Work Plan Creation
Health Plan Contracts	Scheduling Oversight
Service/Maintenance Agreements	Policy/Practice
Facility Maintenance/Service Issues	
Budgetary Issues - Administrative	Field Inspections and Consulting
Other Related Issues	Expert Witness
Business Development for Both Offices	
Oversight of Marketing Team	
Proposal Creation/Supervision	

Health Science Associates (HSA)
Director of Health and Safety Services (1992 - 2004)

Direct a department of health and safety professionals who perform professional level work on projects involving:

Safety & environmental audits and needs assessments	Ventilation evaluations
General Industrial Hygiene and Safety surveys	Preparation of IIPPs
Asbestos and/or Lead-Based-Paint testing, management and abatement services	Contamination evaluation and mitigation
Noise surveys and hearing conservation programs	ELF/EMF surveys and assessments
Development of Hazard Communication programs	Health Physics services
Respiratory protection programs	Instrument calibrations
Air, soil and water sampling	Asbestos services
Indoor air quality surveys	Hazardous waste management
Safety and health training	Litigation support
	MSDS preparation

Project Management for a variety of occupational and environmental projects including air and soil sampling, general Industrial Hygiene surveys, proposal preparation, project scheduling, report review, and overall management of the department.

Health Science Associates (HSA)

Industrial Hygienist/Project Manager/Special Projects Administrator

(1985 - 1992)

Project Management of asbestos removal projects to ensure proper removal techniques are utilized and that client liabilities are avoided; performing building inspection for bulk asbestos collection projects; training of workers in OSHA asbestos awareness and respiratory protection; training of workers in complete respiratory protection; collection of air samples in a variety of occupational environments including sampling for MDA, welding fumes, solvents, oil mists, lead, asbestos (batching and mixing operation of current production), asphalt fume and coal tar pitch volatiles; indoor air quality assessments in occupied office buildings (including microbiological organisms).

SUMMARY OF WORK PERFORMED

Respiratory Protection (RP):

Program Development and delivery of training for City of Santa Monica.

Teach RP segments of courses presented by University Associates.

Asbestos and/or Lead - Employee Training:

Continental Bronze

California Mart

Acra-Cast Foundry

Numerous asbestos contractors and other trades

Fungi and Mold Contamination Investigations:

The performance of numerous environmental fungal contamination investigation and evaluation projects. These include residential buildings for construction defects, commercial buildings related to water intrusion that may cause indoor air quality complaints or the evaluation and remediation of earthquake and water damaged buildings, providing either defense or plaintiff expert witness consulting and testimony in fungal contamination cases, and writing fungal remediation specifications.

Provided expert witness consulting and testimony for both plaintiff and defendants in numerous cases involving fungal contamination, Industrial Hygiene issues, asbestos, PCBs, noise, and pesticides, and had been deposed numerous times. Has also testified at trial, primarily related to fungal contamination cases.

PUBLICATIONS

"Bottling Up Water-Intrusion Claims", Claims, A National Underwriter Publication, Vol. 53, No. 7, July 2005, Page 70.
